Clouds

Gab Coelho

I tried to stay on the clouds
But now I'm feeling underground
Can't find a home now
Can't find a home now

I tried to stay on the clouds
But now I'm feeling underground
Can't find a home now
Can't find a home now

Now I need some space
To find what I need
I kept myself blinded
I didn't know it was real

Now I need some space
To find what I need
I kept myself blinded
I didn't know it was real

I tried to stay on the clouds
But now I'm feeling underground
Can't find a home now
Can't find a home now

I tried to stay on the clouds
But now I'm feeling underground
Can't find a home now
Can't find a home now

Now I need some space
To find what I need
I kept myself blinded
I didn't know it was real

Now I need some space
To find what I need
I kept myself blinded
I didn't know it was real

It was real
It was real
Kept myself blinded
I didn't know it was real

It was real
It was real
Kept myself blinded
I didn't know it was real

It was real
It was real
Kept myself blinded
I didn't know it was real

It was real
It was real
Kept myself blinded
I didn't know it was real

Won't you follow your mind
Want to feel all of your heart
Get out of the shadows
The darkness will make you blind

Won't you follow your mind
Want to feel all of your heart
Get out of the shadows
The darkness will make you blind

Won't you follow your mind
Want to feel all of your heart
Get out of the shadows
The darkness will make you blind

Won't you follow your mind
Want to feel all of your heart
Get out of the shadows
The darkness will make you blind

Get out of the shadows
The darkness will make you blind

Get out of the shadows
The darkness will make you blind

Get out of the shadows
The darkness will make you blind

(Make you blind, make you blind)

Get out of the shadows
The darkness will make you blind

(Make you blind, make you blind)

Get out of the shadows
The darkness will make you blind

(Make you blind, make you blind)

Get out of the shadows
The darkness will make you blind

(Make you blind, make you blind)
(Make you blind, make you blind)

Get out of the shadows
The darkness will make you blind

I tried to stay on the clouds
But now I'm feeling underground
Get out of the shadows
The darkness will make you blind

I tried to stay on the clouds
But now I'm feeling underground
Get out of the shadows
The darkness will make you blind

I tried to stay on the clouds
But now I'm feeling underground
Get out of the shadows
The darkness will make you blind

I tried to stay on the clouds
But now I'm feeling underground
Get out of the shadows
The darkness will make you blind

Now I need some space
To find what I need

I kept myself blinded
I didn't know it was real

(Make you blind)
(Make, make, make, make)
(Make you blind)
(Make you blind)
(Make, make, make make)
(Make you blind)
