

Gush

Trentemøller

[Intro]

Gush

Make the pussy just gush

Make the pussy just gush

Make the pussy just gush

Make it, make it, just gush

Make it, just gush

I make the pussy just gush

I make it, just gush[Verse 1]

I'm imagining things

Do you wanna try?

Take off your halo and wings

Girl, I can make her fly[Pre-Chorus]

I don't know, what's come over me

My momma didn't raise me that way

You lit a fire, from inside of me

That'd light your seat ablaze, girl

Light that ass on fire[Chorus]

I could be the guy to treat you

To a nice movie, feed you

But I don't wanna mislead you

Tonight I think I wanna be dirty, girl

Do you wanna get dirty, girl? Come on

Light that ass on fire

Do you wanna get dirty, girl? Let's go[Bridge]

Girl the world's watchin'

From sunset to moonrise

They're tryna catch a glimpse (intimacy)

Of you and I[Pre-Chorus] + [Chorus][Instrumental Interlude][Pre-Chorus] + [Chorus]
