Sometimes

Keyshia Cole

It's funny how you may never
Know the true effect you may have
On somebody else watching your life
In your eyes they may see dreams and
Hopes and aspirations that might
Help the ones who carry on fightin' their fight
In the night they lay and think about
Maybe one day making it out
'Cause you're there, they have you
To follow through
Sometimes, I just wanna step outside of myself
Sometimes, I just wanna go away from myself
When you know, you know at times it's hard
But you try and try your best get by
And no one can understand you're struggling hard
And you wait so desperately knowing
That you sent a prayer up above
And you know your faith
Could carry on anyway, baby
And you know at night they think about
Maybe one day making it out
'Cause you're there and they have you
To see them through
Sometimes, I wish that I could step outside of myself
Sometimes, I wish that I could go away from myself
As long as you hold on to
As long as you hold on to
Your dreams, they can come true
Trust me, I know
You no matter what, you can depend on me
I'll be right here until the death of me
No one could ever take me away
Trust and believe
I wanna feel what you're feeling
And that's why
Sometimes, I just wanna step outside of myself
Sometimes, I just wanna go away from myself
Sometimes, sometimes
