

# Vittorio E

## Spoon

I took a river and it wouldn't let go  
I want you to stay and I want you to go  
I took a river and the river was long and it goes on I want to be there tonight  
I want to get there but it's just out of sight  
I took a river and felt so slight so hold on So hold on  
And hold on  
It goes on I took a river and the river was long  
I want you to stay course I want you to go  
I took a river and the river was long and goes on
