Hook

I ain't never had shit

They say that I'm a savage My lifestyle lavish, my life changed when my plug sent me that package

x2

Make it rain on her, shorty do the rain dance I done seen a million dollars though these raybans

I just came from Columba and met my new plug  
and he just sent me a package and he did it on the front  
Now I'm on and poppin I got some money yeah I do  
If you need me to front you, you better pay if I front you

This drug game only made me colder  
I'm just getting older  
high tech 8 ounces poured up  
Turn up I can't turn down fuck my haters my dad tried to come in my life after I got this paper  
I shed so many tears you could say thugs cry  
I just wanna be remember as a legend when they shoot me down and I die
