I'm Gonna Do It Right

[Kenny Loggins](#)

Waitin' for the night to fade
Here on a foreign shore
And all I've done is run away
Like too many nights beforeIts taken far too long
To make my world my own
I'm gonna try
'Cause this time round
I've made my mind upChorus:
If I think about leavin'
I'm gonna do it right, alright
'N if I'm thinkon' about holdin' on
I'm gonna do it rightNever been known to lie to me
Ain't gonna start in now
I've never been one for hide and seek
So what's all this endless doubt aboutI know just what I'll do
I've got to make my move
'N I'll be fine
'Cause this time round
I've made my mind upChorus:
then Bridge:
Don't matter what you do
Just get to doin'
It'll come to youNo more maybe
No more baby
No more "save me"And if I want to live my life
I gotta get it up to do it right
And if I want to feel alright
Gotta shed a little light on me tonightOh, hold on, hold onRepeat Chorus to fade
