

# Carefree

## Kris Herman

Carefree, why can we not be  
Forever you and me, forever me and you  
Carefree, I know it's not my fault  
I long to be forgiven for whatever it is I've done  
Tonight the ocean's at my feet  
The stars glitter just like diamonds  
I'm here to drown my fears  
So I can wake up empty and be  
Carefree, I know we're not the same  
I'm trapped too long to be free  
Carefree, sing another song  
And turn the night light on  
And watch me fall asleep  
Tonight the ocean's at my feet  
The stars glitter just like diamonds  
I'm here to drown my fears  
So I can wake up empty and be  
Carefree, why can we not be  
Forever you and me, forever me and you  
Carefree, let me be carefree  
Always be carefree  
Let me be carefree  
Always be carefree
