We're So Heavy

[Matthew Good](#)

Go shoot down the Sun and Moon
Close your eyes, live at noon
We don't know what we are
But we're tired of itGo and get your friends
We'll take this city
While it's sleepingDown and out
Without a doubt
We're down and out
Without a doubt
We're down and outWe're so heavy
We can't get out from under it
There's too many of us
That don't want to fight it
That don't want to fight itHey
I've lost too many years to this
I walk behind the crowd
And pick up the garbage
That was our future without memory
That made the children of the system we created
And then forgaveHow can you love Jove, Drusilla, and forsake Rome?
