

# Ripper

## Cheatahs

Hey!  
Like a shadow in the night  
Molested by his sight  
He's come to get you  
Sharper than cold steel  
He's gonna show you how it feels  
Ain't that a sight  
Nothin' you can do  
You were so special that he drug you straight to hell  
Like all the other bad girls  
He'll rip your heart, he won't let go  
He wants your soul to keep,  
Spreading his disease  
He'll bring you to your knees  
Destroys all he sees,  
He's the Ripper  
Terror in the streets  
Enough to make you scream  
He's all you'll ever need,  
He's the Ripper  
Standing face to face  
I get a little taste of his venom  
I feel it in my veins  
I cannot break the chains  
I'm in heaven  
I was so special that he drug me straight to hell  
Like all the other bad girls  
He'll rip my heart, he won't let go  
He wants my soul to keep,  
Spreading his disease  
He'll bring you to your knees  
Destroys all he sees,  
He's the Ripper  
Terror in the streets  
Enough to make you scream  
He's all you'll ever need,  
The Ripper  
Now he's taken me  
He wants me for his queen

For all eternity,  
He's the Ripper
