

# Brave

Jennifer Lopez

It's a new day  
New day and it's evident  
You must've been heaven sent  
Something we should be hesitant But I'm not at all  
Just feeling more confident  
Just using my common sense  
Just trusting that I'm loving it I can't refuse an offer  
So benevolent  
Can't assume he's gonna use me  
And after him, never call again Don't be afraid  
Don't be afraid  
This is your day  
This is your day It's time to be brave, say I'm not afraid  
Not anymore, I used to be calm  
Now the temperature's changed  
It just ain't the same I'm not afraid, I'm not afraid  
'Cause I've become brave as the light of day  
Straight into a cave to show me the way  
That I might be saved  
Now I'm turning the page Thanks to the power of love  
I can love because I am brave  
I am brave, I am brave I heard him say  
This thing movin' too fast for him  
It's a feeling that I'm straddling  
Foolishly adamant But it's all in his eyes  
Really wish he would let me in  
'Cause the same way you scared of him  
He's scared of bein' hurt again It's time to let go  
Let go of your heart  
It's time for a brand new start  
Never know we might never part Baby, don't be afraid  
Don't be afraid  
This is your day  
This is your day It's time to be brave, say I'm not afraid  
Not anymore, I used to be calm  
Now the temperature's changed  
It just ain't the same I'm not afraid, I'm not afraid  
'Cause I've become brave as the light of day  
Straight into a cave to show me the way

That I might be saved  
Now I'm turning the page Thanks to the power of love  
I can love because I am brave I wouldn't take back  
Anything that I've gone through  
Now I pray for strength  
For anything that I'm gonna do Whether joy or it's pain  
I'm still okay  
I'm gonna be alright  
Cause I'm not afraid No, I am brave, say I'm not afraid  
Not anymore, I used to be calm  
Now the temperature's changed  
It just ain't the same I'm not afraid, I'm not afraid  
'Cause I've become brave as the light of day  
Straight into a cave to show me the way  
That I might be saved  
Now I'm turning the page Thanks to the power of love  
I can love because I am brave Yeah, I am brave
