

Where Have You Been (feat. Kelly Rowland)

The-Dream

Advisory - the following lyrics contain explicit language:

Promise me you'll make me better
Promise me you're here for me
Can you love me for what I am
And love me for what I can be
Say you're nothing like them other girls
Girl you're nothing like them other girls
And for that I'll cry for you
And for that I'll die for you Where have you been?
I'm all fucked up now
It's all fucked up now
And I'm all destroyed
Where have you been?
I needed you then
Where were you then? It's all your fault
Where have you been?
But I'm glad you're here now
Hold me right now
Shit, I'm so lost
Where have you been?
You took your time, I'm glad you're in my life
Now make this right
Where have you been? Now that we're together
I can curse you
I don't ask you what took you so long
Now that we're together
First I wanna say I love you
And secondly what kinda shit you've been on?
You mess around with them other girls
Knowing damn well they ain't got nothing on me
I'm messing around with them guys
Knowing damn well they ain't got nothing on you
But I'm glad that the sun finally shined my way

Ever since you came around I ain't been the same
Saved my life, and I owe it to ya baby Where have you been?
I'm all fucked up now
It's all fucked up now
I'm so destroyed
Where have you been?
I needed you then
And where were you then? It's all your fault
Where have you been?
You almost lost me
I almost lost you
Tell me what to do
Where have you been?
All my life, here's your chance to make it right
Where have you been? Have you been
Where have you been? Baby baby Just when I thought my life was over
God sent you right me way
I needed a super woman to save me from this place
Found it inevitable
That I would never find love
Now that I found true love
I'm never giving it up Where have you been?
I'm all fucked up now
It's all fucked up now
And I'm all destroyed
Where have you been?
I needed you then
Where have you been? It's all your fault
Where have you been?
I'm glad I found you
Tell me what to do
It's all your fault
Where have you been? Baby, baby baby
Make this right Where baby? Where?
Where?
Where baby? Where?
Where?
Where baby? Where?
Where?
Where?
