This Is the Beginning

Scarlet Fade

Verse:
If I am caught
And I cant get up
How will you help me
If you cant see me
Its not just a memory
Coming back to haunt me
This is what is real
This is what I feelChorus:
Im getting out
Things will be different this time
Im turning around
Things will be better in timeVerse:
Its just the beginning
I havent even started
You dont know whats coming
You have asked for it
So hold yourself down because Im coming at you
Be fearful to drown the watergates have openedBridge:
And the world will see
They will open their eyes
Forget the fight
Cuz it goes down tonight
And the world will know
That this is what we were meant for
