

One Night

Jasmine V

Just stay with me one night
Just one night[Problem - Verse]
What? I don't know if I can,
But I'll try
You know I love you,
Yeah, you get me
Here's the keys to my cool
Go drive me crazy
Got the [?] for them boys if you allow me
Went to [?] through the jungle, don't try to play me
'Cause I'm a diamond like nigga at CPT
Remotely control by CSAA
Like a lot of cheese on my bot Maybe I'm the one to make your day
I'm the one to make your bed
Baby will you never know it
When you're running round here and you never know it
I know you doubt your bread
But don't you know I'm on your head
Baby look at me
Thanking every me and I'm all you need
I know you got a bank road
Every day's a pay day
And everything is paid for
I just really wanna see if you can chill and lay low
California, sack and sipping while we eating mangos
Baby I'm tired, wasting my time
With the party hands up, you just give me high-fives
I really want your number but I don't really know why
But now that changed, and you see me eye to eye Ust stay here with me one night
Just one night
Please stay here with me one night
Just one night
Stay with me tonight,
Baby stick around and we can get it right
Stay with me tonight,
Baby stick around and we can get it right[Jeremih - Verse]
Tell me where you headed, headed
Show me where you going,
If you wanna ride, I'd be right with you

Tell me, tell me are you ready ready?
We can do whatever, especially 'bout night with you
You know I'ma have it, have it
Anything you needing, anything you wanting
Just ride with me,
Body on body, come slide with me
You gon' need more than one night with me
You know I got a bankroll, everyday's a payday
And everything is paid for
I just really wanna see if we could chill and lay low,
Jamaica we be jumping up in Montego
Sunset, driving while we're in a Range rover
And we can do whatever, all you do is say so
I really want you now, I I don't even know why
Hope everything changed when you see me eye to eye
Just stay here with me one night
Just one night
Please stay here with me one night
Just one night
Stay with me tonight,
Baby stick around and we can get it right
Stay with me tonight,
Baby stick around and we can get it right
Stay with me tonight,
Baby stick around and we can get it right
Stay with me tonight,
Baby stick around and we can get it right
Just stay here with me one night
Just one night
Please stay here with me one night
Just one night
Stay with me tonight,
Baby stick around and we can get it right
Stay with me tonight,
Baby stick around and we can get it right
