

# Glide

Jeanne Newhall

La La La La Love....

Let grace from the moonlight, shine in your shadow  
draw moonbeams on your sad side, and build you up so you can Glide

Glide, it's just a show  
Glide, director says got to let go  
Glide, help yourself, turn the page, forgive yourself, (if) you made a mistake.

La La La Love...

Let grace from the sunlight, travel to your island  
serenade your woeful heart and play your part, play it out  
play your role out, play it out.

Glide, it's just a show  
Glide, director says got to let go  
Glide, help yourself, turn the page, forgive yourself, (if) you made a mistake.

Let grace from the ocean, roll in your thunder  
illuminate your gentle side and make some hope so can you Glide  
make some hope so you can Glide,  
make some hope, come on let it Glide  
just Glide on down, slide on in, play your role out,  
ah, you got to let go you got to let go.

Let grace, let you Glide let you Glide let you Glide, let grace.
