Jade Alston

(Verse)
Boy I'm sure you don't hear it enough
You're more than beautiful
And I'm sure this world don't show enough love
But that's what I'm here for
You're taking care of business like a real man should
You be playing your position for your woman
And you're everything my heart was on a mission for
I just thought you should know(Chorus)
Boy you got me saying "my my my my my"
Boy you just like fine wine wine wine wine wine
Gonna love you all over
Loving you all over
Oooh baby, my my my my my
Boy you just like fine wine wine wine wine wine
Gonna love you all over
Loving you all over
Oooh baby(Verse)
I'm loving you for the good man that you are
You're everything to me
I'm loving you for your brave wise heart
It's so impressive
Let me cook you up a meal, boy I can sing for you
Let me hold you, I would listen, I can pray with you
I think that you and me could go the distance
I'm so in love with you (I'm so in love with youuu)
And I'm never gonna give up on what we have
And ooooooooooh
And you'll never find a woman more faithful than that(Chorus)
Boy you got me saying "my my my my my"
Boy you just like fine wine wine wine wine wine
Gonna love you all over
Loving you all over
Oooh baby, my my my my my
Boy you just like fine wine wine wine wine wine
Gonna love you all over
Loving you all over
Oooh baby(Verse)
This is dedicated to you

Just wanna let you know I got your back (your back)
And this is dedicated to my number one
Better yet my only one
And this is dedicated to you
That's right your lady can get down like that
And this is dedicated to my number one
My only one
Ooooooooooooh(Chorus)
Boy you got me saying "my my my my my"
Boy you just like fine wine wine wine wine wine
Gonna love you all over
Loving you all over
Oooh baby, my my my my my
Boy you just like fine wine wine wine wine wine
Gonna love you all over
Loving you all over
Oooh baby
