Keep My Head

Threshold

I'm doing the best that I can, everything is going to plan
If only I can keep my head, my head tonight
So when I feel the hardship start I'll try not to take it to heart
I only wanna keep the end, the end in sightIf only I can keep my head when everyone is losing theirs
If only I can trust my heart when doubting minds are everywhere
If I can keep my eyes in focus, everything will turn out fine
If only I can keep my head, my head tonightIf only I can keep my head when everyone is losing theirs
If only I can trust my heart when doubting minds are everywhere
If I can keep my eyes in focus, everything will turn out fine
If only I can keep my headI'm doing the best that I can, everything is going to plan
If only I can keep my head, my head tonight
