Hungry Man

Steve Winwood

Hot desert wind, burning sand
But this land it is my land
Wait by the well, rain don't come

River's dry, pray for my sonI'm just one, one more poor hungry man Yes, I'm just one more poor hungry manSun in the sky hurts my eye

Mouth all dry, may God help me

Wait by the road, man don't come

Rice all gone for thirty milesI'm just one, one more poor hungry man

I'm just one, one more poor hungry man

Yes, I'm just one more poor hungry man

I'm just one, one more poor hungry manShout at the truck passing by

No reply, dust in my mouth

Somebody soon find me here

Drowning here in baby's tearsLove in the world hear me soon

Save us all and save my child

Birds in the skies flying low

Baby no, his tears all dryI'm just one, one more poor hungry man

I'm just one, one more poor hungry man

Yes, I'm just one more poor hungry man

I'm just one, one more poor hungry manI'm just one, one more poor hungry man

Yes, I'm just one more poor hungry man

I'm just one, one more poor hungry man

Yes, I'm just one more poor hungry man
