

Neckbreaker

Big Head Todd and the Monsters

If the flower should lose her green
And the cold never turn to spring
Show me, show me where I'm imagining
All the things, I haven't learned to see, breaker please Oh, I lost my lovin' mind
Found it again, baby, oh no If my mind should take me down below
Black and white blood should lifeless flow
Remind my heart that you're listening
Break my neck and I'll hear you sing, breaker please Oh, I lost my lovin' mind
Found it again, baby, oh no In the universe without you and me
Love carries on at twice the speed
Blows behind us and wrecks everything
Break my neck and I'm lost in the breeze, breaker please Oh, I lost my lovin' mind
Found it again
