From a Distance

P.F. Sloan

Have you ever heard a lonely church bell ring
Have you ever heard a crying angel sing
From a distance from a distance you can hear a crying angel sing
Oh she's crying for the sadness tomorrow sins may bring
Have you ever seen a star fall from the sky
From a distance it looks just like heaven's lost an eye
From a distance from a distance looks like heaven's lost
an eye
It's a chance for God to see you and I
Faith my friend is hard to recognize
When you're traveling all alone in the night
Have you ever wondered just how tall is tall
From a distance the highest building still looks very small
From a distance from a distance the highest building still looks small
Oh you can't measure anyone or anything at all
Faith my friend is hard to recognize
When youâ€™re traveling all alone in the night
Have you ever heard a lonely church bell ring
Have you ever heard a crying angel sing
From a distance from a distance you can hear a crying angel sing
Oh she's crying for the sadness
tomorrow's sins may bring
