

Ghost (Solidisco Remix)

Mystery Skulls

'Cause the world might do me in
It's all right cause I'm with friends
Cause I'm giving up again
It doesn't matterAnd I'm feeling like a ghost
And it's what I hate the most
'Cause I'm giving up again
And this time (this time, this time)This time I might just disappear
This time I might just dis
This time I might just disappear
This time I might just disappear
Try and hear me then I'm done
'Cause I might just say this once
Seen this played out in my dream
It doesn't matterTime for givin' up the ghost
Fuck, it's you I hate the most
And there is no guarantee
It doesn't matterThis time I might just disappear
This time I might just dis
This time I might just disappear
This time I might just dis
