My Love Paramour

Cocteau Twins

Two different fates
My love paramour ooze out and away
Two different fates
My love paramour ooze out and awayTwo different fates
They fig up my love ooze out and away
Two different fates
My love paramour ooze out and away one howLove if it's swallowed for pity
Must ooze out and away one howLove if it's swallowed for pity
Must ooze out and away one how
Two different fates of my love paramour
Ooze out and away one howLove if it's swallowed for pity
Must ooze out and away one how
Two different fates of my love paramour
Ooze out and away one howTwo different fates
My love paramour ooze out and away one how
