Not Enough

U.S. Bombs

There's not enough, there's not enough
There's not enough crash every night in a different place
Daylight's doin' time birtha's just a ghetto slag cross the state linesAlways on the road rollin' to the next dive
Always on the road tryin' to save our souls
A lot of these people on earth are propsNever gonna wake up like a pinball
You try to get through keep your style pointsAlways on the road rollin' to the next dive
Always on the road tryin' to save our souls
There's not enough souts, cops, crooks
There's not enough lawyers, doctors, goons
