Prisoner Of The Void

Iron Savior

Have I returned from the dead

A lightning was striking my head

Clarity's filling my mind

I am refinedUnlock the gate to reality

Leaving the maze to be free

Tangled in a realm

Of fantasy and dreams

Blinded by delusion and pain

I must escape - break the chainCountless years

Of existence in the cold

Now I'm at the mercy

Of the one I've once controlledFrom far beyond the ending of all time

I saw the light saving me from the night

Eternal slave your master has returned

Obey and release me

The prisoner of the voidUhh, I've been traveling

The darkest dimension

A disembodied soul

In damnation

But then I found sanctuary

Peaceful rest in my own entityNow I realize

We have reached the final shore

Oh, I can't allow him

To destroy it anymoreFrom far beyondDemons of time I have felt your embrace

Out in the vastness now I know your face

Oh I gave into the power of thought

Now I must use it to leave my

Sepulchral vaultFrom far beyond

The ending of all time

I saw the light

Saving me from the night

Eternal slave

Your master has returned

Hear my commandFrom far beyond

I have been seeing the light

Eternal gods

Hear my entreaty and free me

Release me from the void
