

Ecstasy

Calvin Harris

Fall back and touch the night
And reach for the blinding light
'Cause everybody says that we're too young to see
We know that we're brave enough to be In the state of ecstasy
In the place we're meant to be
In the state of ecstasy
There is only you and me Break through from the other side
And lead me to Paradise
'Cause nothing but love can take us away from here
Every time I close my eyes, we disappear In the state of ecstasy
In the place we're meant to be
In the state of ecstasy
There is only you and me Uh uuh, eh eh
Uh uuh, eh eh
Uh uuh, eh eh
Uh uuh, eh eh In the state of ecstasy
In the place we're meant to be
In the state of ecstasy
There is only you and me
