I Love You

Brave Combo

I love you
I hope the workds get through
You're my dream come true
Oh how I love you
I love you
I know it's cliche, too
But that's no big deal, cause it's real
I love youPut your arms around me
Hold me tight
Everything will be alrightI love you
Althought I sound confused
I'd stake everything on just how much
I love youI love you
With all my doubts removed
I'd go anywhere, do anything, to prove how much
I love youPut your arms around me
Hold me tight
Everything will be alrightI love you
Feels like I have the flu
It's such a bad case, my body aches
I love youI love you
I hope you want me too
I pray everyday, I'll hear you say
I love you
