Ruby Falls

Tufts Beelzebubs

Tonight, where do we go from here?
The road through ruby falls has reached the end
And now we're digging in the sand
They're promising that help is on the wayLove, confession number one
Impossible and sorry
And judge, can you look the other way?
Some things are best unsaidAnd now where can we go from here
When all the morning birds have gone away
Two wrongs won't navigate tonight
The after life is all in the end
The after life is ours in the endLove, don't look me in the eye
Just wash it all down
And judge, can you let me run away?
We're outta here, straight outta hereSomewhere down buried in the sand
Two birds give out a song
And all of ruby falls is singin' alongSing along, sing along
Sing along, sing along[Incomprehensible] gone and turned away
[Incomprehensible] gonna make you pay
