

# One For the Money

Jesus Jones

Well I don't know about you  
But there's not a lot that I want to do  
I could get a job in a bank...  
...No I don't think so  
But I've seen the ad I want the car  
And all the things that make life just fine, don't they?  
If you can have it, I can have it  
All that's yours can surely be mine  
And it's one for the money  
To keep up with the Jones'  
So you can look around and see you're not alone  
Money wasn't meant for the poor  
And it's truer now than ever before  
You either have it or you don't  
So where do you fit?  
It's never never when you need it  
Always always when you don't but that's life  
And I really wouldn't care if I could only have a share of the good life  
And it's one for the money...  
All in all, you know it's too easy
