

# The Corner

## De La Soul

First time I left home  
Here's the words that my dad said to me  
He said sit down son  
Don't take curves  
Doin' 90 miles an hour  
Or you will end up upside down  
If you really like her  
Don't forget the flowers  
The first time and every time you take her out  
I've been around the block  
And I know what's 'round the corner  
Choose your words wisely  
Cause you can't take 'em back  
Once they've broken someone's heart  
Just because your friend does  
Doesn't mean you have to  
It's what sets the two of you apart  
I've been around the block  
And I know what's 'round the corner  
Don't pretend to know it all  
When you don't know a thing

And know your way around it  
Before you throw your hat into the rain  
And don't commit to somethin'  
If you can't follow through  
And your past will always catch up with you  
I've been around the block  
And I know what's 'round the corner  
Always call your mama  
When you say you gonna  
While she's still here for you to call  
And don't forget the man upstairs  
In your darkest hour  
He's a pick me up every time you fall  
I've been around the block  
And I know what's 'round the corner  
I've been around the block  
And I know what's 'round the corner

I'm in your corner  
I've been around the block  
Enough to know what's 'round the corner  
What's around the corner [x2]
