## Bad Things

I kicked the world so close to me  
Get out of trouble for the people I meet  
(Yeah)  
Don't you ever loose your faith  
I never had it never wanted it anyway(Chorus)  
We got a long way home  
Givin' it all the way  
Hold your head hold your own for the big fade out  
We are the lonely ones  
We got a chance to say  
Hold your head hold your own until we fade outDon't bother at all  
Keepin' it for an instant, watch it make a roll  
Baby it's gung ho  
Come tomorrow, stay till you belong(Chorus)  
We got a long way home  
Givin' it all the way  
Hold your head hold your own for the big fade out  
We are the lonely ones  
We got a chance to say  
Hold your head hold your own until we fade out\*Guitar solo\*Say you won't run away  
Say you won't run  
(For the big fade out!)(Chorus)  
We got a long way home  
Givin' it all the way  
Hold your head hold your own for the big fade out  
We are the lonely ones  
We got a chance to say  
Hold your head hold your own until we fade out(Chorus)  
We got a long way home  
Givin' it all the way  
Hold your head hold your own for the big fade outWatch your head son  
(We'll never get fault)  
Lay your body safe  
(We'll never get fault)Hold your head hold your own, till we fade out
