

The World You Love

Jimmy Eat World

I got a story it's almost finished
Now all I need is someone to tell it to, maybe that's you
Our time is borrowed and spent too freely
Every minute I have needs to be made up, but how?
I'm looking for a nice way to say, "I'm out", I want out
I fall asleep with my friends around me
The only place I know I feel safe
I'm gonna call this home
The open road is still miles away
Hey nothing serious we still have our fun
Or we had it once
But windows open and close
That's just how it goes
Don't it feel like sunshine after all
The world we love forever gone
We're only just as happy
As everyone else seems to think we are, are
I'm in love with the ordinary
I need a simple space to rest my head
And everything gets clear
I'm a little ashamed for asking
Just a little helps, it gets me straight again
Helps me get over it, over it
Helps me get over it, over it
It might seem like a dream
But it's real to me
Don't it feel like sunshine after all
The world we love forever gone
We're only just as happy
As everyone else seems to think we are
You should see the canals are freezing
You should see me high
You should just be here, be with me here
It doesn't seem there's hope for me, I let you down
But I won't give in now not for any amount
Don't it feel like sunshine after all
The world we love forever gone
We're only just as happy
As everyone else thinks now

Don't that feel like sunshine after all
The world we love forever gone
We're only just as happy
As everyone else seems to think we are
