It's A Wrap

Zara Larsson

So you're back around
Talkin' 'bout I change your heart again
But boy the curtain's down
Be damned if I might play that part again

Yeah I've seen it all before
Spare me this encore
It's quiet on set
The lights have gone dead

When all is said and done
And this story is the one
Ain't loving you back tonight

I won't fast-forward, replay or rewind
R-r-replay or rewind home with you
I won't fast-forward, replay or rewind
I ain't wasting more time over you
This ain't a scene, this ain't an act
This ain't a movie for you to wrap
Baby, won't fast-forward, replay or rewind
I ain't wasting more time over you

But for heaven sakes
I done been through hell and back with you
No more second chance
There's only so more drama, boy I can't go through

See I'm on another play,
My life is not your stage
I finally moved on
So picture me gone

I used to be your star
The Venus to your Mars
But I don't see that tonight

I won't fast-forward, replay or rewind
R-r-replay or rewind home with you
I won't fast-forward, replay or rewind

I ain't wasting more time over you
This ain't a scene, this ain't an act
This ain't a movie for you to wrap
Baby, won't fast-forward, replay or rewind
I ain't wasting more time over you

Movie in set for this one-man show (?)
Bite through your nails for a cameo
Cause I found a new leading man oh
And I feel so alive, I feel so alive

I won't fast-forward, replay or rewind
R-r-replay or rewind home with you
I won't fast-forward, replay or rewind
I ain't wasting more time over you
This ain't a scene, this ain't an act
This ain't a movie for you to wrap
Baby, won't fast-forward, replay or rewind
I ain't wasting more time over you
