

# Blind Breeding the Blind

## Militia

Condescending futile minds each another  
Despondent waste in society  
Elimination an attempt to redefine  
A master plan altered by greed  
A biased opinionated sore  
On the faces of all a receding mental bore  
A malignancy of such beyond a cure  
A never ending circle parallel in mind  
To end with time all seems so absurd  
Destitution grim demise  
The faltering of a system forced to bleed  
Disintegration an elusive pacifier  
Too blind to see the way they've bred society  
I can't believe the life you teach  
The words you preach  
Hypocrisy leading to your demise  
Corruption fills your world of hate  
For all who do not fall  
Exposing your warped mind of lies
