

Set Me Free

Pennywise

Life is a lesson you can only learn for free and time keeps on slippin'
like a faded memory

And I got the answers starin' right in front of me, time heals my soul
Set me free, set me free, set me free, set me free

I stand about, face my mission, you don't know what you've been missin'
There is a reason for all that comes to
be

My troubled life riddled with dark insanities

I need solutions through the pain that surrounds me, time heals my soul
Set me free, set me free, set me free, set
me free

I stand about, face my mission, you don't know what you've been missin'
Life is a lesson you can only learn for
free and time keeps on slippin'
like a faded memory

And I got the answers starin' right in front of me, time heals my soul
Set me free, set me free, set me free, set me
free
