

Already Spent

[Jeff Bates](#)

I'm workin' 40 hours and more if I can get it
Still need an extra job so I can get more credit
Well, I work hard because we charged tomorrow yesterday
I'm in debt over my head the American way It's already spent every dime I'll ever make
From the high cost of living and what the government takes
Well I don't have to worry or wonder where it went
I sleep like a baby 'cause it's already spent
Sure where it goes I hear 'em talkin' on TV 'bout where we should invest
Stocks and bonds, mutual funds, 401's and the rest
Well my retirement plan's a coffee can and it's full of iou's
My money goes to those I owe and I bet you yours does too It's already spent every dime I'll ever make
From the high cost of living and what the government takes
Well I don't have to worry or wonder where it went
I sleep like a baby 'cause it's already spent
Play it son
