

# Gravity Grave (live Glastonbury '93)

## The Verve

Get back, get back again and again  
Been here since I can't remember when  
My life is a boat, being blown by you  
Nothing ahead, just the deepest blue  
To me you're like a setting sun  
You rise then you're gone  
To me you're like a setting sun  
You rise then you're gone  
Come back, come back again and again  
I've been here since I can't remember when  
Your world just spins whilst mine stands still  
Nothing's changed in your gravity grave  
To me you're like a setting sun  
You rise then you're gone  
To me you're like a setting sun  
You shine then you're gone  
To me you're like a setting sun  
You shine then you're gone  
To me you're like a setting sun  
You shine then you're gone  
Go down on your light so bright  
It burns my eyes  
Sounds like the perfect way  
To end my life  
To me you're like a setting sun  
To me you're like a setting sun
