Trouble

[Brenton Wood](#)

Trouble, trouble, baby Trouble, trouble, honey
You're comin' 'round here tryin' to tell me that you care
But if you gonna hurt me, girl Let me give you a warning
You betta be careful
You know I really care and I love you so But if you do me wrong Then I'll be gone in the mornin'
You know true love is hard to find So you better change your ways and change your mind Now, baby
Don't say yes, and don't say no But if there's a chance, then let me know Say maybe
baby, your my true love And say I'm just a friend
If that's how it is, let this be the end
We're gonna have trouble Trouble, baby Trouble, trouble, honey
You don't miss the water Till the well runs dry So baby let's give this love a try, indeed You wanna be rich,
don't wanna be poor With the love I have, I'll give you more Take heed, baby
You know, the world is cold and it's awful rough But when you got it made, then things get tough Can you dig
it,
baby Stand by me, and I'll stand by you Until we have a love that's gonna be true Get with it, baby
You've had your share of fortune and fame Without a true love You have nothin' but pain
Trouble, yes, I'm gonna have trouble Trouble, we're gonna have trouble Trouble, you know ...FADE
