

Disorder

Owle

Disorder
So tired
steep in the dark
you've shown me the way
and I came
your words are
whispers- in the night
you lead me away
and I came
you put my broken bones
in a safe place
my broken bones-
sleep with you
Undecided
sleep in the dark
you've shown me the way
and I came
my broken bones
in a safe place
my broken bones
sleep with you
DISORDER
if I lose your trace
DISORDER
in the night's dark maze
if you
you 're not here
