

Insemination

Pigface

Really real crouches in descending patterns
Really real crouches in descending patterns
Light brigade fracture pain and pleasure
Left and right crosses the street of friction Kill the lights, forget about the traffic changes
The walk sign left behind decided not to follow
Braille, braille speechless, find it out again
Find it out again Alleviate tradition just to piss in someone face
Regressive the lights on to see
On sunlight make myopic glasses on the eyes Crucify the vision impaired on the images retarded
Insemination, all the rituals gone bad
All the rituals gone bad Look inside the pocket of money worth used
Instead of [Incomprehensible]
Killed written words dangerous hallucination
Forget distrust the man who lives with it
The man who lives with it Crack kicking bones, it burns and rises from its earthly bounds
No lease on love to please on again to recipe
Dysfunction a cure for all, reorganize another fall Failing to see the sick and agony
Disturbed motion, electric waving
Motion red, the bed sheet heaving
Rip the womb of bullshit, a child died anyway
