

Hold On To Me

Danny Vera

When you need a shoulder to cry on
Or just a hand to hold
And when you're having trouble sleeping, babe
I will be your pillow Just count on me, babe
I will never ever let you fall
Just close your eyes now
And into my arms you'll flow Hold on to me
I will never let you go
Hold on to me, baby
I'll be there to hold on to you
When you're feeling lonely
And you got no one to call
Just dial V-E-R-A, babe
I'll be running to your door If you need a shelter to hide in
From the pouring rain
Let me be your towel then
I will make you dry again Hold on to me
I will never let you go
Hold on to me, baby
Cause I'll be there to hold on, hold on to you Just hold on to me
I will never let you go
Hold on to me, baby
Cause I'll be there to hold on, hold on to you
You gotta hold on
ohhh and never let me go
You gotta hold on
Yeah You gotta hold on
You gotta hold on
You gotta hold on
Hold on to me
Girl, You gotta hold on
You gotta hold on
You gotta hold on
