

Hottest Thing In Town

Billy Joe Shaver

She's the queen of the red-hot mamas, hottest thing around
And she shows up at a honky-tonk 'cause she can right just lay it down
Ya know she get on down, on down to the ground
She's the cat's meow and a dog's bow-wow, hottest thang in town
Friend of a friend of a friend of mine said he
knew her well
Said she hung around heaven till she learned too much
Then she headed straight for hell, she went straight to hell
Everything for sale
She walks the walk and talks the talk, hottest thang in town
She's the hottest thing in town by a country mile
She can lick her lips and roll her hips and really make you smile
She's got everybody's number, she's making all the rounds
She's a hell of a heavenly ball of fire, hottest thang in town
Someday I'll get lucky and slide into her town
Maybe if she sees me, we'll go round and round and round
We'll go round and round, burn the whole town down
We'll be the red-hot dame and her lady's clown, hottest thang in town
