

March Of The Wolfmasters

Janelle MonA•e

Good morning cyber-boys and cyber-girls,
I'm happy to announce we have a star crossed winner in todays sweepstakes
Android number 57821 otherwise known as Cyndi Mayweather
Has fallen madly in love with a human Anthony Greendown
And you know the rules shes now scheduled fro immediate disassembly
Bounty hunters, you can find her in the neon valley street district
On the fourth floor in the leopard plaza apartment complex
The droid control marshals are full of fun rules today
No phases only chainsaws and electro-daggers
Remember only card carrying hunters can join our chase today
And as usual there will be no reward until her cyber-soul
Is turned into the star commission, happy hunting!
