

Move on Baby

Cappella

Take the chance
Give it all that you can
'Cause he doesn't feel a thing for you
You can try to move on
So nothing will go wrong
Maybe he will be back
To search for you Back on track
It's me yeah, and I fixed it
I proved my point, now we mix it
Yeah the A double L star, fresh and I got together
To make the track flow better
That's why we stand strong, now you know what's up
If I'm on the move
I can't stop
The beat is simple, but you can't refuse it
That's why I love music Move on baby
Move on baby
Move on baby
And we get together Again and again I keep going with the swing
I stay funky like this and I bring
Beats to move you
So I can prove you
That I can rock a microphone like I used to
I love music yeah, can you feel it
Check me out
This is how I deal it
The bass, the mid, the treble
I just fuse it together
'Cause I love music
