

# Homage

## franskild

I'll drown you in kisses  
I know I miss so many magic memories  
When I'm away from you I miss your touch, I miss your voice  
I miss the way we unlock, the secrets through each other  
There's only you I could love forever

(Chorus)

That's why I'm so lonely in a crowd  
And all I think about is coming home to you  
It's pother stuff and dreams, how we hunger for our time

I could never get enough of your sweet love  
I know I miss so many magical moment  
When I'm away from you I miss your touch, I miss your voice  
I miss the way we unlock, the secrets through each other  
There's only you I could love forever  
[Chorus]I'll drown you in kisses
