

War (Instrumental)

LINKIN PARK

There's no peace
Only war
Victory decides who's wrong or right
It will not cease
Only grow
You better be prepared to fight And it will not apologize
For laying down your life War There's no pain
It was there
And it has become your only right
And words you lost
In your despair
Forever black each on your life And it will not apologize
For laying down your life War, destroy you It needs no sign to justify
Laying down your life War, destroy you War
