

La La La (feat. Wiz Khalifa)

Dorrough Music

I'm on that, la la la la la
Counting my money saying, la la la la la
Laughing at the haters like, la la la la la
We do it every day like
We do it every day like
We do it every day like
Break it down, roll it up, lighters up, lighting up
Break it down, roll it up, lighters up, lighting up
Break it down (break it down)
Roll it up (roll it up)
Lighters up (lighters up)
Now light it up (lighting up) I'll be on that Cali Kush
I won't smoke that Reggie Bush
Even though I rush right through these willows like I'm Reggie Bush!
Cloud nine, always take the fights, I'm steady booked
I'm half baked, let the Mary Jane and Kiesha cook
I go around the world me and my local homies
I turn up like I got remote controllers on me!
Got cheese and bread, all I need is pepperoni
All my bitches bad, don't need no testimony!
Aces of spades, I'm a renegade!
I done pour a fou' off in my lemonade
Hawaiian Punch, a Sprite, or even Minute-Maid
(Pour it up and drink it like it's Gatorade!) I stay high
This OG kush got me believing I can fly
All around the world, they blow on la la la la la
Everywhere we go, we on that
Every race I know, be on that
Roll up and blow I'm on that La la la la la
Counting my money saying, la la la la la
Laughing at the haters like, la la la la la
We do it every day like
We do it every day like
We do it every day like
Break it down, roll it up, lighters up, lighting up
Break it down, roll it up, lighters up, lighting up
Break it down (Break it down)
Roll it up (Roll it up)
Lighters up (Lighters up)

Now light it upBreak it down, roll a pound, blow it up!
I got a call from my dog, said it's going up!
Said if you got some KK, best believe I'm showing up!
And if the sign say no smoking, I don't give a fuck
This is what you call that one percent
'Cause 99 of the other is fake!
Real cookies, not the ones that you bake
Smoking one and got one on the way
Am I new larger estate, drawers of the dank like Bob Marley was wake
You understand me?
I'm always high, I'm never on the ground I'm somewhere in the sky
Not R.Kelly but I believe that I can fly
And all my niggas screaming Taylor Gang or Die
Floating away cause I'm on thatLa la la la la
Counting my money saying, la la la la la
Laughing at the haters like, la la la la la
We do it every day like
We do it every day like
We do it every day like
Break it down, roll it up, lighters up, lighting up
Break it down, roll it up, lighters up, lighting up
Break it down (Break it down)
Roll it up (Roll it up)
Lighters up (Lighters up)
Now light it upI'm on that Texas 'till you know what's up (Know what's up)
That mean I got that drink up in my cup (In my cup)
And everywhere we go we fire up (We fire up)
We stay wet and heated like a fucking firetruck
Ha, I'm super hot, chain full of rocks
I bet I got more diamonds that your jeweler got!
You know we smoking loud make you choke a lot
And every time you choke, we make you take a shot!I stay high
This OG Kush got me believing I can fly
All around the world, they blow on la la la la la
Everywhere we go, we on that
Every race I know, be on that
Roll up and blow I'm on thatLa la la la la
Counting my money saying, la la la la la
Laughing at the haters like, la la la la la
We do it every day like
We do it every day like
We do it every day like
La la la la la
