

Anything and Everything

The Walls Group

We'll never bow
we're not afraid to call Your Name
Bring on the crowds
Soon some day their noise will fade
When you crack the clouds
Sons and daughters will be rescued

So we'll do anything and everything just to spend a lifetime with you
Yes anything and everything so my forever is with you

Yes we refuse
To have any other God but you
Well never lose yes our powers weak but yours rescues
That's why we choose
We choose the one who makes all things new

So well do anything and everything just to spend a lifetime with you
Yes anything and, everything so, my forever is with you

That's why I surrender all
Ooh...I surrender all
All to thee my blessed saviour
I surrender all

We're here for a while, but this place is not our home
Some days we smile, but many nights we cry alone
But soon the praise will give way you'll call us by name
And well all sing our brand new song

So well do anything and everything just to spend a lifetime with you
Yes everything that, we've ever been through, will be worth it when we see you.
