Live By The Ocean

The Hoosiers

I want to live by the sea, live by the ocean
I did my best to fit in but I outstayed my welcome
I change my name and my friends, run till the land ends
But I'm always waiting for me, no matter how hard I pretend
Somewhere I can be free, so big, it's swallowing me
Along with everything I used to be
Dive in before I explode, where armies are swallowed
Some many monsters in you, some many monsters in you
Some many monsters in you
So many, so many, so many, many, many
For once in your lifetime will you
Do what you want, not what you have to?
For once in your lifetime will you
Do what you want, not what you have to?
Do what you want, not what you have to?
I want to live by the sea, wanna live by the ocean
Though I start over again, I'll never change where I come from
Loss of my momentum set me in motion
My heart and soul were for free but nobody would take them
Somewhere I can be free, so big, it's swallowing me
Along with everything I used to be
Dive in before I explode, where armies are swallowed
Some many monsters in you, some many monsters in you
Some many monsters in you, so many
So many, so many, many, many
For once in your lifetime will you
Do what you want, not what you have to?
For once in your lifetime will you
Do what you want, not what you have to?
Follow me only if you want to
But do what you want, not what you have to
For once in your lifetime will you
Do what you want, not what you have to?
Do what you want, not what you have to?
Do what you want, not what you have to?
Tear it down and start over again
Tear it down and start over again
Tear it down and start over again
