

# Lies In the Dark

## Bloodgood

Babe, you whisper in my ear  
Things I shouldn't hear  
Oh girl, this time you've gone too far  
It's like a falling star  
You're givin' yourself away  
Too much of a price to pay  
Girl, temptation's all around  
Our love has fallen down  
Oh, baby, the passions of design  
Our love is on the line  
Affections have been misplaced  
The scars we cannot erase  
Lies in the dark  
Words of love but they're tearin' us apart  
Lies in the dark  
Baby, it's true  
Lies in the dark  
Words of love but they're tearin' us apart  
Lies in the dark  
Sounds like love but it's breakin' my heart  
Lies in the dark  
Words of love but they're tearin' us apart  
Lies in the dark  
What can we do
