

Messin' Around

Deal's Gone Bad

I dont know if I can trust ya baby
so many people been talkin around town [...]
little hints that make me wonder
come on, gotta tell me baby
come on, girl

you dont know me like I know ya baby
seems like you never care to know about the
simple things that make me a man who doesn't play around
I don't play with emotions
baby [are you, all this] messin around?

you dont miss me like I miss you, baby
some of them nights I dont sleep at all
and when you come over I cant know for sure
that you've don't play around
you've don't wander around on me
never know if you're messin around, girl.

cuz if other some other guy
is huggin you in his arms so tight
[...] lonely
[...] tonight
girl, are you messin around?

cuz if there's some other guy
you got to tell me
gunna lose my mind
cuz I just dont think
that I can take this
baby, one more time
I think I know,

that you dont love me like I love you baby
you probly never, never, will
and then I
you [stay out?] without makin a sound
just a single doubt
everybody talkin all around town
whenever I need you girl you never can be found

baby [are you, all this] messin around?
