

# Rest Of My Life

Chris Brown

Baby, love is gettin cold, hold me  
My heads down, soak sheet, many tears  
Might have to go away tonight,  
Cause I gotta feelin my days are numbered  
This might be the day  
[Chorus:]I close my eyes for eternal sleep  
No more wakin up to Sunday morning now  
Live to learn, learned a lot  
Tonight I'm clocking out  
This is my last kiss  
My last wish  
My last chance  
My last dance

My last gift to give you  
My love  
It's the last time I'm holding you  
Rest of my life with you tonight  
Spendin rest of my life with you tonight  
Spendin rest of my life with you tonight  
Spendin rest of my life with you  
My life with you  
[Chris Brown:]The walls are closin in yeahh  
Wonderin when I see you again  
In your eye, you wonder why  
So this time I won't be right back  
But I'll be your shining star  
A memory in your arms  
[Chorus x2]
